The Weather, yesterday, was cool and pleasant. In the evening it became cloudy with indications of more rain.

The River continues to decline slowly. The slight rain of Saturday night will have no material effect on the streams. Boatmen are anxiously looking for more rain, there is a probability that the rates will be reduced.

Business, yesterday, was exceedingly dull. There were numerous arrivals and departures, but they brought but little freight and took away but little.

Freights are becoming scarce, but remain unchanged in price. As the case now stands, unless the river becomes quite low, there is a probability that the rates will be reduced.

The railroad packet, *Charley Bowen*, will depart to-day for Cairo at her usual hour, 12 o'clock, Capt. Dexter and Markall soon very pleasant gentlemen and carefully look after the comfort of their passengers. We trust the *Charley Bowen* will be favored with all the freight to go South to-day.

The *Auctor* will be due this morning from New Orleans. She will go to Louisville, and return in a couple or three days.

The *Anglo Saxon* having got all the water out of her, and patched up the holes in her hull, left for Cincinnati on Sunday night, where she will undergo repairs.

The Dunbar departed for Paducah with a light cargo.

The *Greenville*, *Lue Eaves*, W. V., *Gum*, and D. B. Campbell, all departed for Green River with very light trips.

**AN OLD FRIEND.**—Henry Hart, a worthy citizen, boasts of having been a resident of this county for the last forty-four years. He is a native of Virginia, was married in Pulaski county, Kentucky, in 1813—his venerable lady is still living—and emigrated to this county in 1816. They have had sixteen children, twelve sons and four daughters, all living, and sixty-six grand children. Mr. H. is an Old School Baptist minister, and has married over one thousand.

It may not be inappropriate to mention in this connection that Warrick county was organized in 1813, and that the county seat at that time fixed at "old" Arlington. That "town" however, having since "gone back," and nothing now remains to designate the ruins of an old log cabin, Posey and Vanderburgh counties, and a considerable portion of Spencer county, were then included in Warrick. The whole number of voters polled at the first election held in the county were told, was only forty.

Now the aggregate vote of the three counties alone, is about 9,000. Among the early reminiscences of the county we will mention the fact, that in 1824, when General Jackson was a candidate for the Presidency, he received but one vote in Ohio township, and that vote was cast by Hon. Gaines L. Roberts, who still resides near Newburgh, and who, to this day, is a Democrat of the "Hickory grit."—Warrick Democrat.

The annexation of Savoy to France may be regarded as a fixed fact, though the Continental powers are grumbling at it considerably. Louis Napoleon insists that Savoy and Nice are naturally parts of France and necessary for its defense. Savoy, geographically, belongs to France, for while it annexed the Alps would be the boundary of Geneva would separate it from Switzerland. Forney's Press say it would be natural for Victor Emmanuel to have an objection to allowing Savoy, the cradle of his house, to be transferred to any other ruler. However, of the White Hand, who was the Hapsburg of the House of Savoy, first obtained the investiture of Savoy, nearly eight centuries ago, and Victor Emmanuel retains it as his descendant. But it would seem that, before the commencement of last year's war, Victor Emmanuel had promised to transfer Savoy to France, provided Lombardy were annexed to Piedmont, and having obtained Lombardy, with a good prospect of also having Modena and Parma, if not Tuscany and the Romagna, he is likely to fulfill his promise. The European Powers may grumble and chafe, but Savoy will be annexed notwithstanding—Louisville Journal.

TOM CORWIN is suggested by the New York Commercial Advertiser, as likely to receive the Chicago nomination.

## NEWS BY TELEGRAPH.

HAMILTON, April 2, m.—The traffic on the G. W. R. R. is rapidly increasing. The returns for the last fortnight show an increase of nearly \$1200 over the corresponding period of last year.

Williams' kerosene oil works were destroyed by fire Saturday night last, together with 7,000 gallons of oil.

CINCINNATI, April 2, p. m.—In the municipal election to-day the Democrats were triumphant. Mr. Rule, a Douglas delegate to Charleston, was elected Trustee of the Water Works.

PITTSBURG, April 2, m.—River 4 feet 6 inches by the pier mark. Weather clear, but cold and windy.

THE COMMITTEE appointed in the lower House of Congress to investigate the subject of the public printing has made its report, which exhibits a mass of corruption. The public printer receives more than his work is worth, and then is compelled to distribute the gains for the support of party organs and to aid the election of members of Congress. The Washington Constitution and the Philadelphia Pennsylvanian were kept up in this manner, and the money was distributed under the personal supervision of the President and Attorney General Black. Over \$11,000 were sent into Pennsylvania to influence the Congressional districts, at about the same time when Mr. Buchanan wrote his hypocritical Fort Duquesne letter, depreciating the use of money to control elections.—*Iron Journal*.

THE EMORY AND HENRY TRAGEDY.—The Knoxville *Whig* says:

The examining court in the case of John Brownlow closed on Saturday evening last.

It was composed of seven magistrates. Three were for an acquittal, and four for referring the case to a jury. The defendant was consequently held to bail in a bond of one thousand dollars.

THE GREATEST tensile strength of copper being 16 tons per square inch, its resistance to compression is said to be but 3 tons per square inch.
